	<p>1. Best practices description & outcome of best practices (At least two):</p>	<p>1. Establishment of Knitting club: Knitting originated in the Middle East and eastern Mediterranean around the 11th or 12th century. Knitting then spread to Europe, where male guilds used it to make religious garments. Gradually, it became a ubiquitous, practiced by people of all genders and cultural backgrounds, and used as a means of providing warmth and comfort through hand-crafted clothing and blankets. Over time, knitting evolved to reflect the unique cultural influences of various regions. Himachal is a land of cold climate where woolen clothes occupy major portion of our wardrobe. Thus we established a knitting Club where basics of hand- knitting is learnt. The hand knitting has a number of mental & physical health, emotional, social and financial benefits. I reduces stress & Anxiety, Enhance cognitive function, Promotes Mindfulness, Lowers blood pressure, and helps with Insomnia. In the physical health benefits; it improves Dexterity and Coordination and also provides therapeutic effects.</p> <p>On Emotional front it Boosts mood and Self-esteem and fosters a Sense of community. It promotes our social connection and can have charity in the form of donating hand knitted articles to homeless or to needy people. Besides these benefits the knitting hobby can be monetized as selling Knitted products on-line on various social-media platforms, or offline to local market and to fair and exhibitions, Teaching knitting classes, Designing knitting patterns, Partnering with yarn companies and knitting businesses.</p> <p>Thus hand knitting is not just a hobby, reduces our scrolling time on social media, create a mosaic of pattern with colorful yarns with low cost material that can be sourced from local market. With household work; this craft can provide financial independence, other health and social benefits in bonus. 		<p>2. Managing Plastic –Pollution: Plastic is a polymeric non-biodegradable material accumulates in the Earth's environment that adversely affects humans, wildlife and their habitat. Plastics deposition escalates dramatically through single use plastics; commonly used as bottles of cold drinks, water, carry bags and food packet wrappers. Water accumulated in these in monsoon favours outbreak of various diseases.</p> <p>Our college is situated in the foothills of lower Shiwalik. Hills The surrounding area is enriched with lime mines and have a religious place. To manage the plastic pollution in this area a task force was constituted under the aegis of Eco Club.</p> <p>The drive against the plastic pollution was fought to create awareness and efforts to change the human behaviour. The personal contacts were made by the members of task force to resident of Bharali village and to pilgrims coming to Dohly Dhang, a nearby religious place.</p> <p>At the same time collection of empty, waste plastic bottles were made along the road side (thrown by various truck drivers and other persons) and from other nearby villages. The bottles were converted to planters. These planters beautify our campus with herbal, ornamental and medicinal plants.</p>	10 marks
